

Third Grade is excited to announce that we will start learning our "Skip Counting" songs the Tuesday after we get back from Labor Day weekend. These "Skip Counting" songs help students to count by 3's, 4's, 6's, 7's, 8's, and 9's. Learning these songs will help speed up the memorization of our multiplication facts that we will begin learning in October. Below are the melodies that you sing for each skip counting song. Encourage your student to sing them to you each night! Happy singing!
